HONGRU IS A DESIGNER AND PROTOTYPER. He believes the combination of left brain and right brain could guide the ordinary to the extraordinary.

Master of Fine Arts

Design (IxD track)
California College of the Arts
Class of 2017

Master of Engineering

Computer Technology
Beijing Institute of Technology
Class of 2013

Bachelor of Engineering

Computer Science & Technology
Inner Mongolia University
Class of 2011

UI/UX Design Intern @ Google's Nest

Palo Alto, 05/2016 – 09/2016

I worked on the UI/UX design team to help shape the out-of-box experience for new Nest products. Key contributions: i. OOB timing competitive research. ii. 8 prototypes for 16 user studies. iii. Store, onboarding emails, in-app AR measurement tool design & prototyping for Ideal OOB Exploration.

Design Technologist Intern @ Amazon

Seattle, 05/2015 – 08/2015

As a DT intern within Human Centered Design team, I worked on a Smart Staffing Board project for Amazon fulfillment centers to help managers and associates refine workflow and improve efficiency. My responsibility included user research, UI/UX design, software & hardware prototyping, user testing.

Front-end R&D Engineer @ Baidu

Beijing, 07/2013 – 04/2014

By bridging the gap between our design team and develop team, I designed, developed and maintained a Front-end Style Guide for Baidu Map's mobile Web app, which helped in increasing the accordance of user experience and improved the average page loading speed by 11%.
